Profile

Engineering student at CentraleSupélec, passionate about full-stack development and delivering complete backend and frontend features. Experienced in academic projects and hackathons, I am seeking a 5–6 month internship starting July 2026 to contribute concretely to technical projects and develop professional software skills.

Education

CentraleSupélec — Grande École Program

Algorithms and Complexity, Computer Architecture, Networks and Security, Web Data Intelligence, Statistics and Machine Learning, Optimization, Object-Oriented Programming

Gif-sur-Yvette, France

Sep. 2024 – Jun. 2028

Université de Bretagne Occidentale — Bachelor's in Mathematics

Analysis, Algebra, Probability, Statistics

Brest, France

Sep. 2021 – Jun. 2024

Skills

Backend : Python/Django, Node.js/Express, REST APIs, business logic

Frontend : React, HTML, CSS, integration and prototyping

Databases : SQL, relational modeling

Tools : Git, Agile teamwork

Languages : French (C2), English (B2+), Arabic (A2)

Projects

Netflix — Full-stack web application (Node.js, Express, TypeORM, React)

- Developed a recommendation engine based on user similarity.
- Selected top-5 similar users and generated personalized recommendations, improving suggestion relevance in a small user test group.
- Fully integrated with the frontend and presented to software engineers at **Theodo**.

EasyPrescription — Hackathon Coding Weeks (Python/Django, SQL)

- Web application for secure prescription delivery to pharmacies.
- Managed users, authentication, and database modeling.
- Functional prototype completed in 1 week within an Agile team.

Cubli — Academic robotics project (Arduino)

- Developed control algorithms to stabilize a cube.
- Software integration and testing of sensor and motor models.

Hopper — Jumping robot simulation (Python)

- Designed software simulations to analyze the robot's dynamic behavior.
- Implemented physical models and parameters to optimize jumps.

Professional Experience

Factory Intern — Textile Logistics

Elis

Trappes, France

Jun. 2025 – Jul. 2025

- Participated in production operations and order preparation, contributing to smooth workflow on the industrial site.

Secretary General — CentraleSupélec Africa

CentraleSupélec

Gif-sur-Yvette, France

Dec. 2024 – Dec. 2025

- Coordinated a 30-member club and organized 5 cultural events with over 200 participants.
- Managed annual calendar and internal communication to ensure smooth activities.

Interests

Volunteering (Chaïnon Manquant), weight training, creative sewing, cooking.
